Attn: Jim Christiansen,
Project Manager

Dear Mr. Christiansen:

I have been told the schedule for homes where both home and yards need to be cleaned has not yet been completed for this year's cleanup. My home is one where both the house and yard need to be cleaned.

I would like to make you aware that I have a 12-year-old child living in my home (see-enclosed picture). We are both breathing this contaminated air. My furnace has no duct work so the furnace vents into the attic, blows across the attic where the insulation is not covered by anything, then blows through my home. We have lived in this home for seven and a half years now, since my son was five.

I would appreciate your considering my situation and prioritizing my home when you are compiling the list of homes/yards to be cleaned. If you have any questions, please feel free to contact me at the above number.

Respectfully,

A handwritten signature in cursive script that reads "Carol Ramos".
